Ghent PDF Output Suite 5.0

Working with EFI[™] Fiery[®] proServer and Fiery XF

The Ghent PDF output Suite 5.0 is supported by Fiery proServer and Fiery XF 6.0 and above. Please follow the instructions below for a successful output.

To download the Ghent PDF Output Suite, please visit: http://www.gwg.org/workflow-tools/test-suites/ghent-output-suite/

Step-by-step:

- 1. Log into your Fiery XF Client with administrative rights.
- 2. Go to the System Manager.
- 3. Create a new workflow.

File	Edit	System	Tools	W	Window	Help		
New					User		∵ສບ	
Imp	port Environment				Workflo	w	ν₩γ	
Sav	/e		H	S	Output	Device	7.₩0	

4. Select "Proof" as the type of application. Then select "Altona Test Suite 2.0" as the template name. Click the "Load" button.

5. Double-click the workflow name to change it when needed.

6. Connect your new workflow to the desired users and output device.

Users	•	Workflows			•	Output Devices		
admin	<u> </u>	•	EFI Linearization	•]	•	Linearization device	
guest		•	Ghent PDF Output Suite 5.0	٠		٠	VUTEk GS5500LXr Pro UD	

- 7. Go to Job Explorer and import the files you want to process into the new workflow.
- 8. Print the files.

Additional information:

More information on EFI Fiery proServer and Fiery XF is available at: <u>http://www.efi.com/products/inkjet-printing-and-proofing/fiery-for-inkjet/</u>.

For more information on how to upgrade Fiery proServer or Fiery XF to the latest version, please contact your EFI representative or Fiery Wide Format Certified Reseller.
