RELEASE NOTES

EFI™ is pleased to announce the release of Fiery® XF and Fiery proServer 6.2.1. This latest release is free of charge to everyone with their Fiery XF software covered under an EFI Software Maintenance and Support Agreement, (SMSA), or an EFI Enhanced Support Program, (ESP).

Bugs Fixed:

- Fixed two spot color rendering issues.

- Fixed a USB issue printing to the Epson StylusPro 7900/9900.

- Fixed an issue with printing crop marks on RGB output devices.

- Fixed a nesting issue for PDF/PS/EPS files.

- Corrected a Fiery XF 6.2 Colex cutter implementation issue.

- Fixed a black line issue when using step and repeat.

- Fixed an issue with Zünd Cut Center orientation marks.

- Fixed an issue that would prevent Fiery XF to correctly recognize Zünd "Prepare it!" PDF files.

Availability:

- Fiery XF 6.2.1 is available as an online update for all configurations of Fiery XF and Fiery proServer running Fiery XF 6.2. Customers with 6.0 installed, first need to update to 6.1 (via the online updater, or using 6.1 DVDs) then use the online updater to 6.2, then to 6.2.1. Customers with an earlier version installed need to perform a full installation of 6.0 or 6.1, and then perform the online update(s) to get to 6.2.1. Fiery XF 6.1 for Jetrion is available only as a full installation, regardless of the currently installed version.

EFI Software Maintenance & Support Agreement (SMSA) and EFI Enhanced Support Program (ESP):

The EFI Software Maintenance and Support Agreement (SMSA) and the Enhanced Support Program (ESP) for Fiery XF and Fiery proServers provide an ongoing stream of features, improvements, fixes and the latest printer drivers. Fiery XF 6.2 is available for everyone covered under one of these agreements.
